A QUALITY SCHOOL COMMITTED TO INTERNATIONAL EDUCATION

Akilashree S

I hardly give a review for institutions, and this school be my compulsory pick. I don't wish to say the usual points like the extra curricular activities which are available in the campus like horse riding, swimming, shooting, foreign language classes but to tell about the administrative point of view. This school have really good professionals with capabilities to run a school who wish your kid to experience different kind of exposure than to simply be with their books and this is exactly the place where you wish to put your kid into. They let to discover the talent of your kid and encourage to pursue it in their life. So, if you are looking for a school which can guide your kid to stand above all, then pin down this location.

The school is very well planned, be it infrastructure or the way it actually works. Students are encouraged for both academics and extra curricular activities, as they should be.

The student-teacher bond can be very well noticed. Students are also given training in horse riding, shooting and many more such activities which is amazing. Overall, have had a great experience!
